# THE LEARNING RESOURCE CENTER TUTORIAL PROGRAM

## Student Responsibilities

The Learning Resource Center (LRC) provides students with several tutorial and support services. The Supplemental Instruction (SI) program offers students scheduled and walk-in tutorial sessions, E-Tutoring, Online Tutoring, study skills workshops and access to interactive computer software programs. To make the most of your tutoring experience, we suggest that you follow the guidelines:

1. If you plan on traveling to BMCC only to see an S.I. Leader, it is recommended that you first call (212)220-1383 to confirm that the S.I. Leader is not absent.

2. Arrive on time for scheduled appointments

3. Attempt homework assignments prior to meeting with a SI leader/tutor

4. Study the course material before each tutoring session

5. Bring textbooks, questions for tutors and any other necessary materials to appointments

6. Tutoring/SI Sessions are limited to five (5) students per hour for each tutor

7. Students are only allowed to receive tutoring in courses for which they are registered

8. Tutors will help you learn how to complete your assignments; **they will not do it for you**

9. Bear in mind that a tutoring session is not a substitute for your class

10. Notify the tutoring coordinator or any SI Supervisor on duty of any issues

11. Ensure that you swipe in every hour for which you receive tutoring

12. Students are not allowed to eat or engage in any other activity in the LRC

13. Ensure that you safeguard your belongings when you are in the LRC

*As a courtesy, please be respectful of others and keep your noise to a minimum volume.*
